THE GOSPEL ACCORDING TO AFRIKANS / HANDLE YOUR BUSINESS!

WORDS TO WATCH OUT FOR

The staff of THE Nubian Network

The following is a brief list of words and people to watch out for! Afrikan

people are tolerant and forgiving of but so much. These are words other groups make up and give you the definition of, TO EXERT POWER OVER YOU. Most of these words and ideas are expressions our culture and our people have never had a need or use for. Usages of these words keep us out of balance, especially when our enemies dictate what they mean. Afrikan people do not claim to always be all that, but we are the PERFECT BLACK PEOPLE. We are Nubians. Watch out for the semantics of these words. Do you know what we mean?

PIRATE
NEGRO
NEGRESS
NIGGER
TERRORIST
MULATTO
OCTOROON
MULTI-CULTURAL

PROGRAM

From time to time we always have people who come before us and speak well. The only problem is...they ain't saying "nothing" well! Watch dem words and watch

who say dem! We are Nubians and many are becoming devils beside the devils. They aspire to have what the devil has and they aspire to be what the devil is. And then they aspire to share in the devil's manifestation. How can you do that without becoming a devil? Those who know their culture are less likely to be "bedeviled" by some of these words or some of these people. Do you over stand what we mean?

THE GOSPEL ACCORDING TO AFRIKANS

(OUR STORY)

Nubian build pyramids. Pyramids are a Black family project. The following quotes are spirit building blocks. We need you to read these quotes, be inspired and ignite spirit in others to make us go forward. The knowing and knowable spirit knows there is nothing we can't achieve. We are building the final pyramid. We have an obligation and a responsibility to our ancestors. These quotes will help us to fly higher. The higher we can fly, the higher

we can build the final pyramid.

ARE YOU READY?

The Gospel According To
Attorney Alton Maddox

"The question is not whether White America is ready for a Black President. The question is...Is Black America ready for a Black President?"

STILL IN SLAVERY

The Gospel According To
Attorney Alton Maddox

"As long as we are not entitled to representation, legal or political, we're still enslaved. The dividing line between slavery and freedom, in a republican form of government, is representation. And when you cannot get representation you are enslaved."

BLOOD SHED

The Gospel According To
Dr. Kwame Ture

"My people have never arrived at any position in this country, not even individual positions, without the shedding of blood in mass struggle.

No one can show me any example of advancement by the Afrikan masses in this country, even individual positions of advancement, which have not been acquired at the price of the shedding of blood by the masses of our people.

No Afrikan in this country has arrived at any individual position without the shedding of the blood of the masses of our people"

BETRAYAL?

The Gospel According To
Dr. Kwame Ture

The Nubian Times

"Of course the logical conclusion must be clear. Since the people shed the blood for these positions, these positions do not belong to the individuals who occupy them...these positions belong only to the masses of the people."

"The political conclusion must also be clear. Anytime you use this position which has been gained by the blood of the people, not for the people, but for your self, for your own individual interest, you have already betrayed the blood of the people."

IT'S UP TO US

The Gospel According To
Junious Ricardo Stanton

"As the US and global economies unravel many people are getting feint hearted, anxious and fearful. This is not the time to wimp out on life just because things are falling down around us, because you bought into a materialistic reality that is now turning to ashes or because you were hoodwinked and bamboozled by the powers that be. As bad as things are and as bad as things will get, there is no reason to give up, quit on yourself and our community."

MODELS OF NORMALITY

The Gospel According To
Dr. Amos Wilson

"We must look at the psychopathology of everyday life and must recognize we cannot have it both ways. We cannot talk about a people who have enslaved us, who discriminate against us, who insult us, who do all manner of other things against us, and then use them as models of normality."

ASIATIC BLACK MAN

The Gospel According To
Dr. Khallid Abdul Muhammad

3

“Africa, as it is called today, is not our home, but our throne. And from that throne, we ruled our home, which is 196 million, 940 thousand square miles of the planet Earth.”

KAMITE EXTRATERRESTRIAL

The Gospel According To

Dr. Bobby Hemmitt

“I represent what the Afrocentric movement was suppose to filter into. After we learned the history, we needed to learn the mystery.

The original mystery was all about raising yourself up to the illuminating point. Us becoming GODS! To some of the brothers and sisters in the Afrocentric movement it sounds strange, but they always talk about the mysteries.

The mysteries are nothing but the metaphysics of the occult realm. The alkhemical side is the deepest component of the mysteries. The metaphysics is just as legitimate as the historical aspect of things we talk about because we have bibliography. That’s the good part about it. Nobody can say that it’s not authentic. I knew when I started out ten years ago that I would have to put text up their ass. The mystery is just as legitimate as the history, because history is just a lie agreed upon!

RACISM

The Gospel According To

Dr. Bobby Hemmitt

“Racism is not the white man, it is only an expression of him. He is far more severe than the expression. If he truly exercised to us on a daily basis, his true essence, they could not masquerade as being in a civilization. They would be the ultimate contradiction, so they have to exercise racism. And racism is civil compared to how they really are!

ABOLISH PRISONS

The Gospel According To

Dr. Angela Davis

“The American-style penitentiary system is spreading internationally and having a devastating effect, with prisons serving as receptacles for people who can no longer find a place in their societies.”

“This may be an auspicious moment in U.S. history to confront the prison crisis, marked in part by President Obama's election and the economic crisis!”

AFRICA’S SLIDE BACK TO COLONIALISM

The Gospel According To

Prof Haroub Othman

“African countries, which attained their independence later than others, ought to have known better than fall into the same pitfalls that their colleagues in the continent got involved in throughout their independence.”

“These countries stood a better chance of becoming the beacon of African states heading toward a joint integration in response to calls made by our own Mwalimu Julius Nyerere and Kwame Nkrumah of Ghana.”

ENTITLED TO REPARATIONS

The Gospel According To

Ingrid Hill

“African Americans are entitled to reparations from the US government and corporations, both of which have benefited from centuries of exploitation of labor through slavery and other inhumane conditions that persist in negatively impacting the Black community to this day.”

The Nubian Times SWINE FLU HYPE!

The Gospel According To

Djehuty Ma'at-Ra

“Swine flu virus is nothing but an attempt to get a national flu vaccine program legislated. Since the American people won't vote for it, government and the pharmaceutical industry will simply attempt to scare the people into accepting their national flu vaccine program which will bring in billions of dollars (or Ameros) for the pharmaceutical companies.

WHY NO TREATMENT FOR FEMALE COMPLANTS

The Gospel According To

Djehuty Ma'a-Ra

“There is no profit made in the pharmaceutical industry utilizing Nature's herbs and that the Center for Disease Control and all government agencies know about natural cures and healing for the people, but again, there is no profit in people becoming cured and getting healed from disease.”

TRUTH ABOUT HISTORY

The Gospel According To

Dr. Adelaide Sanford

“Education is today’s Civil Rights frontier. But we do not have the courageous, charismatic leadership that understands what must happen about it.”

THERE HAS TO BE A MOVEMENT

The Gospel According To

Dr. Adelaide Sanford

“There is no question about the fact that we know that teachers are not culturally intelligent. They’re not culturally sensitive. They’re not

4

culturally competent. But there is no pressure from our people to see that that happens. The Civil Rights movement today is education.”

WHY AFRICAN COUNTRIES IMplode

The Gospel According To

George Ayittey

“The destruction of an African country, regardless of the professed ideology of its leader, ALWAYS, ALWAYS begins with some dispute over the electoral process, occasioned by the adamant refusal by the leader to relinquish or share political power.”

POWER

The Gospel According To

Dr. Wade Nobles

“The definition of power is a psychological question. It is not a military question. It is not an economic question. It’s not a social question. It is a psychological question. Power is the ability to define reality and to have other people respond to your definition as if it were their own. Our dilemma, our problem is that we allow other people to define the meaning of who we are. And once we accepted their definition we gave them power.

PRISONS AND BLACK MEN

The Gospel According To

John Burl Smith

“The two institutions that have had the greatest impact on the black community, black males in particular, over the last three decades are college and prison. This unusual dichotomy has shaped both its level of prosperity and poverty. Prisons have reduced the number of young black men that would have entered college and many that may have found gainful

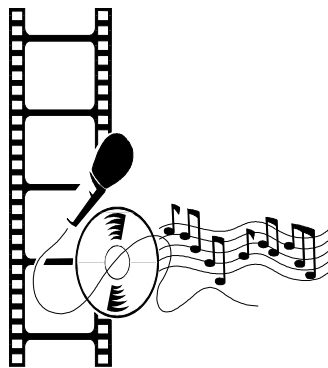

employment. Draining off what would have been some productive individuals into to an unproductive system, prisons compete for funds that may otherwise have gone to the black community as resources. This peculiar configuration continues to rob black communities in untold ways.”

MOUNTING EVIDENCE

The Gospel According To

John Burl Smith

“Mounting evidence reveals a disturbing trend. In 1980, there were 143,000 black men in prison and 463,700 enrolled in college. By 2000 these statistics were reversed with 791,600 black men in prison and 603,032 enrolled in college. The war on drugs has taken a huge bite out of the productive potential of the black community as these numbers continue to increase. They reveal clearly the racist nature of America, and that its hypocrisy of equality and justice seems to continue even though there is a black man in the White House and a black Attorney General.

KEEP PEOPLE SICK

Chris Rock

“The money is not made in cures, but in keeping people sick.”

LIVIN’ IN THE LIGHT

Caron Wheeler

Had to survive living in the light

The Nubian Times

Had to stay alive living in the light

Have to survive

Living in the light

Hold the beat

Stop the beat

Drop the beat

Children of nature from another culture

Had to survive living in the light

Stolen from the center of the world untimely departure

Somehow survived living in the light

Had to survive living in the light

Had to stay alive living in the light

Have to survive

Living in the light

Roots become subculture

Oh the sound of street dub-vendor

Knew you had to survive living in the light

Beautiful yet scattered

Through it all your spirit never shattered

Glad to stay alive living in the light

Had to survive living in the light

Had to stay alive living in the light

Had to survive (yes in the light)

Living in a light (so bright had to guide you home)

ABOLISH PRISONS

The Gospel According To

Dr. Angela Davis

“Prison was supposed to allow people to reform themselves. Incarceration turned out to be far more damaging to the psyche ... and could not effect rehabilitation. We have to undo past damage.”

“Racism fuels the prison-industrial complex,” she said. “The vast disproportion of black people makes it clear. ... Black men are criminalized.”

”Law enforcement surveillance determines who gets caught and who goes to prison. Many people commit acts that, if discovered, would result in prison sentences, but they are safe because the police don’t target their communities for surveillance.”

GAY RIGHTS?

Dr. Kwame Ture

“I am an Afrikan. I know my culture and I stand on it. No one will confuse me. Look carefully at your culture. Understand properly your culture, otherwise you get confused. The problem of gay rights is a problem of tolerance towards homosexuality. In the Afrikan community, you have never heard of anyone of us bashing in the head of any homosexual. Gay rights is certainly a legitimate problem in the European community, because of the intolerance of that culture, but the Afrikan culture is extremely tolerant.

HERITAGE TEACHING

The Gospel According To

Dr. John H. Clarke

“Heritage, in essence, is the means by which people have used their talents to create a history that gives them memories they can respect and that they can use to command the respect of other people. The ultimate purpose of heritage and heritage teaching is to use people's

talents to develop awareness and pride in them selves so that they themselves can achieve good relationships with other people.”

STAYING POWER

The Gospel According To

Dr. John H. Clarke

“I think it is the role of the leader, it is the role of the teacher, to ask and answer the question, “How will my people stay on this Earth?” And I always want the knowledge and the equipment to do that. If it takes some guns...I want enough of them. What so ever it takes to keep them on this Earth in peace, keep them fed, keep them in prosperity, keep them in safety. What so ever it needs, that is what I want. And that is what I will strive to get. I won’t put a tag on it, whether it’s equal or not, but that is what I want. I want my people to stay on this Earth.”

CULTURALLY SENSITIVE TEACHERS

The Gospel According To

Dr. Adelaide Sanford

“I don’t think that you can hold back any child if they haven’t had a prepared, certified culturally sensitive teacher.”

BLACK HOLOCAUST

The Gospel According To

Del Jones

“The process of turning a beautiful Afrikan infant into a mere caricature of her/his genetic self in but a few years of exposure to AmeriKKKa’s devilishly designed environment and their backward exploitative culture is deadly. How is this done with the swiftness, you may ask? Easily, we are the bridge to our children’s madness. We are the willing conductors to alien insanity that we ourselves could not escape. In our vanilla flavored madness we are totally unqualified

The Nubian Times

to nurture an Afrikan infant to childhood much less adulthood.”

THE NIGGERIZATION OF AFRICAN PEOPLE

The Gospel According To

Junious Ricardo Stanton

“We are constantly being programmed for debauchery, nihilism and self-destruction. We are like frogs in a pot where the flame/heat is raised incrementally ever so slightly so we don’t notice it, we accommodate ourselves to the environment in the pot not realizing we are being cooked to death.”

LACK OF COMMITMENT

The Gospel According To

Booty Adams

“A major dilemma we have from Black people since integration has been a lack of commitment. Lack of commitment to their friends, families, spouses, children, communities, race and obligations of any kind! We gave up what schools, businesses, kinship and what unity we did have for the sake of integration. The right to give everything good we did have to somebody else. You do not need a lot of education to see that some of the people that we have perceived as our best have run from our communities. Run from commitment. Run from responsibility. Their commitment lies someplace else. They want to integrate and hope the past just disappears.”

“Everybody says they can remember how it use to be, but their new found status keeps them from having the same kind of commitment that the people who got us to this point had. If you turn your back on your family, then you ain’t shit. PERIOD. What makes you think you are above them? You

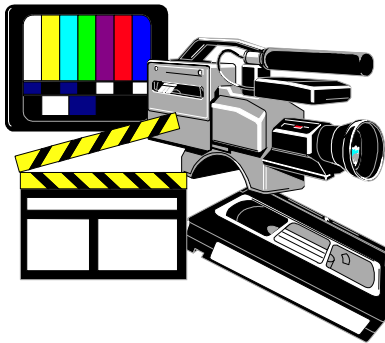

6

done got above yourself. You are foolish. Where would you be if everybody had turned their back on you? The "Black Stuff" all these jokers been running from is you. We need to be committed and organized NOW! Only then can we stop all this foolishness like we always have done before. With commitment!

PEACE

The Gospel According To
Assata Shakur

Peace is a rare gift. Peace of mind, peaceful sleeps, and peaceful spirits are all luxuries that few rebels can ever afford."

**MOVIE
REVIEW**

By DIVINE1ON1

WEAPONS:

Featuring:

Nick Cannon

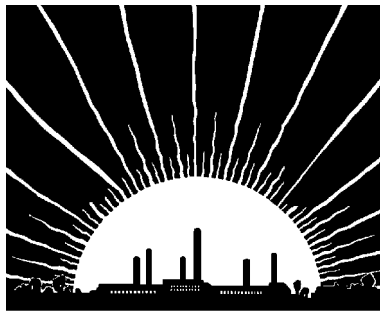

& Others

This movie could have been easily titled "WIGGERS". I got the feeling it all revolved around poor & young, Black people and Mulattos all living up close and in the middle of a bunch of poor & young, White people. A twisted, Black girl has moments with

some whacked-out White boy and the incident spins out of control. The movie seemed to be styled after Quentin Tarantino's, Pulp Fiction. It definitely kept me awake and trippin' out on every set.

8 1/2 out of ten stars

**EUROPEAN
FACTS**

**SUBURBAN LEGENDS
(RUMOR CONTROL)**

The United States is a fine example of a homosexual empire similar to ancient Greece, where it is a proven fact of history that differing factions of homosexuals will beat down and oppress other homosexuals.

In European traditional family values, the White man rules everything and his wife belongs to him. Any children belong to him. He can buy and sell wives and children, to do with as he pleases. Women are considered a burden.

Europeans worship the homosexual warrior.

Caucasians have the longest history and pattern of abandoning and murdering their children than any other group of people on planet Earth.

White people are the people most likely to need drugs to go to sleep,

The Nubian Times

to wake up, to have sex and to stop themselves from being depressed.

The British had enslaved poor Whites in Ireland before they ever started that process in the Americas.

Caucasians are the only group of people with a history of beating Black women, theN turning around and having that same Black woman suckle their child.

The most important aspect of the White woman's struggle is to become more like White men, instead of fighting for the validation of their womanhood.

The United States and England set up Israel in 1948 as part of the United States federal system. Under international Maritime Admiralty Law it is always referred to as the state of Israel

Americans buy two-thirds of the world's supply of diamonds.

When Caucasians talk of survival they mean someone else must either die or be subjugated.

Europe is land poor, resource poor and people poor.

The biggest beneficiaries of affirmative action are white women. They receive 80 percent of all benefits and pass them on to their spouses or children.

President Barack Obama is now the leader of the New World Order and some White people's time is up. European dominated governments and Major Corporations have no use for White people that want to sit on their asses and let the World come to them. This change is not a sudden end to White Supremacy as the world knows it, but it is an end to a lot of the covert actions by Red Necks and Hill Billie's.

The Catholic Church is a Jewish, Freemasonry political movement

founded in the Middle Ages (325 AD) by Constantine.

An amazing number of White men prefer women that look more like boys than they do women.

England is ruled from the White Hall and the United States is ruled from the White House.

Since the slavery period, African people have found out that most White women don't particularly like having babies and mothering children. No matter how many incentives White supremacy gives to White women, the Caucasian population remains at "0" population growth.

Throughout the 19th century, over 40% of the British Navy were Black.

During the COINTELPRO program in the United States, White liberals were used to infiltrate Black groups, just to understand the behavior patterns of Black life. These liberals made in depth studies of the people they were dealing with.

During slavery in the United States, many slave states had laws (Maryland, Virginia, North Carolina, South Carolina, Georgia, New York) that forbid foreign Black sailors from setting foot on the docks in their cities.

Throughout Canada, the United States and other European strongholds, White females are in the process of setting up more bathhouses for "gay", "queer" females exclusively and selectively.

White America is the biggest collective recipient of racial preference in the history of the cosmos.

There are more European-Americans below the poverty line than there are African-Americans living in the United States.

The United States is under cyber attack 24 hours a day. It's not all from foreign government, but some is from domestic terrorist of their own making, nationalist & computer experts in other countries

"Brit" in Hebrew means a contract or a covenant, while "ish" means man. British means man of the covenant.

The Greeks believed that only men were intelligent, women were inherently evil and the greatest love a man could experience is the love of another man. Greeks were the first "civilization" to legitimize the concept of homosexuality. Most European countries still operate from those principles.

White people don't want Black history taught or studied in any school system they dominate, because they are afraid that Black history will overwhelm them.

The path of

"LEAST"

Resistance

(JUST DO IT?)

Divine1on1

When people are oppressed, they oftentimes become apathetic to the situation. On one level they may be conscious, but on the level that matters most to our race-family, they are in a deep, deep sleep. People of Afrikan descent have been conquered and colonized on several fronts and many find themselves in a state of denial. When I write of conquered, I write of a people that control very little of their means of feeding, clothing, sheltering and protecting each other. When a people are oppressed as much as we are, they sometimes take *the path of least resistance*.

The Nubian Times

Because so many avenues of production are blocked to an oppressed people, oftentimes they will do anything for anybody for gratification or monetary means. This is even at the detriment of loved ones or those people that struggle with them. It is nothing for members of our oppressed group to try and escape the oppression by any means necessary. This decade has brought about Black people that "sell themselves out" several times a day if necessary. It would seem like it is their mission to do whatever oppressing groups want of them.

If they can make money showing their breasts in public...they just do it. If they can make fame and fortune stripping buck naked...they just do it. If men can secure monetary gratification by dressing up like a woman...they just do it. If women can get attention & paid by posing like she is a man...they just do it. Their excuse is....It don't matter! Many say, "They're making the money."

Well, this is a reminder to brothers and sisters everywhere. The time has past for "Step & Fetch It" behavior. We are the only people that will let people go down town all day long and sell out, and then watch "THIS NEGRO" come home, put on their shorts, barbecue and then brag about their job, while we sit there and look at him or her. This kind of Negro behavior has got to stop. A strong resistance force has to be built. You don't stop making a living, but we have got to come to grip in our communities that we have to stem the tide of white supremacy domination on our terms. Either you stand for something or you will fall for anything. If you don't know and respect your culture, anybody can make a fool of you. JUST DO IT!

BLACK FACTS

All knowledge is rooted in reality

Africa is a land of many countries with wonders, beauty and history unparalleled in its cultural, spiritual and creative richness.

African-Americans live in a society that does not have their interests at heart.

African created the female warrior. Her name is Ma'at.

Every solution to every problem is in history.

From the time of the first slave revolts in Haiti in the 1780s, many French slave owners took their Haitian slaves with them to Louisiana to escape the revolts.

Malcolm X loved his people.

A Black woman, Rear Admiral Michelle Howard, commanded the U. S. ship that rescued the Maersk Alabama Captain Richard Phillips off the coast of Somalia.

When there is no value for Black people in the Americas, like the values placed on them when they were considered White people's property, White folks consider it "open season" on Black people.

Ballet had its origins in ancient Egypt and Nubia. It's all there on the Kemetic walls and temples.

Black people in their right African mind do not abandon their children.

African-Americans never got integration or equal education.

In traditional African communities, you don't do anything that destroys your community.

Most Black women do not realize that they are in the fight of their very lives with White women. Too many Black women, across the globe, have fallen for the "battle of the sexes" ideology that White women want them to believe and play out. White women are attempting to control the thinking & psyche of Black woman, so that Black women can help them do their part to help maintain the global White Supremacy plantation system.

African kidnapped captives were first brought to the 13 original colonies of the Americas under Merchant's Law, under the profit motive.

Suriname, the country in South America, once had 400 slave plantations. 400 were Jewish and 300 were Dutch.

In parts of rural Brazil, the landowners are the law and slavery still exists. Workers are being shot and killed when asking for pay for their labor and judges threatened that try of enforce laws. Many of the people have no faith in the police or the judicial system. Landowners say there is no slavery, just minor violations of Brazil's labor laws. The landowners are wrecking havoc on the Amazonian Rainforest for the sake of exporting charcoal to the U.S. Human Rights groups estimate that 50,000 Brazilian workers are enslaved every year.

Black people have always been building without money.

European Pedophiles have set up nests in Senegal with their power, money and influence. They are buying people off and establishing

The Nubian Times

enormous networks to plunder under-privileged African children and maintain a wall of silence, to keep most African adults from knowing about their homosexual, dirty deeds. European pedophiles feel safe in Senegal, because it is hard to prove their guilt, when money pays for silence. Poverty amongst the people of Senegal, allows these pedophiles to buy silence. Only heavy exposure will put an end to their practices.

Africa is a land of many countries with wonders, beauty and history unparalleled in its cultural, spiritual and creative richness.

Martin Luther King loved his people.

On the eve of the Civil War in the United States, more Blacks lived in Virginia than in any other state. Approximated 490,000 were slaves and 59,000 were free Blacks.

India remains the world's leading film producer but Nigeria is closing the gap after overtaking the United States for second place, according to a global cinema survey conducted by the UNESCO Institute for Statistics (UIS).

Africans have more genetic variation than anyone else on Earth.

New archeological finding have uncovered evidence that the first Americans were actually the people some people now call Australian Aborigines, not American Indians. The skull of a young girl has been found in Brazil, carbon dated at 12,000 years old and is the oldest human skeleton yet found on the American landmass. During the past ten years at least 50 skulls have been found in Brazil and Columbia, all preceding the coming forth of any Siberian or Mongoloid peoples by about 3,000 years.

White people want passive Black people that will accept their

9

situation. They like Black people that don't get angry.

India has 35 States with over 714 million voters and 543 parliamentary seats in their government.

Doing slavery, Black women were given incentives to have babies. Their children were considered "gold" in the plantation system. The more slaves the Master had, the more wealth he could accumulate. Today, Black women are given incentives not to have babies.

More and more Africans are acquiring Western tastes, but lack the skills or the treachery to make them work.

Extreme poverty and an influx of European tourist is helping Brazil fast become the pedophile capital of the world.

Bolivia has its first indigenous President and the government has enacted a new Constitution that grants rights to the country's indigenous majority. The dominant ideology in the country is a militant indigenous nationalism, whose vision involves promoting the inclusion and empowerment of the indigenous majority.

In the United States, when White people converted Africans to Christianity during the slavery period, the Africans had to stop dancing, shouting, playing the violin (fiddle) and playing the drum.

Since 1973 and Planned Parenthood, African=American females have had 13 million abortions in clinics. There are no statistics available for those that could afford private doctors.

The African population all over the Americas was composed of male and female Blacks either in the United States before Columbus or brought during slavery.

There are 4 nuclear power plants on the Afrikan continent. Nobody has a monopoly on technology anymore.

As we see more Black lawyers, Black district attorneys and more Black judges, we also see more Black men and Black women sitting in the jails. The prison system is over run with Black people.

Trafficking of children in West Africa is widespread and increasing. Boys and girls, as young as seven, are trafficked, primarily for their labor. The countries involved include Mali, Côte d'Ivoire, Benin, Gabon, Ghana, Togo, Nigeria, Niger, and Burkina Faso.

There are two distinct qualities of a leader that sets him apart from a ruler. While rulers are selfish and shortsighted, leaders are selfless and foresighted.

Whenever Afrikans speak of any natural advantages that we Afrikans have on this planet, such as melanin, Europeans get hostile.

The Pigford case, is a class-action lawsuit, where thousands of Black farmers sued USDA claiming they had for years been denied government loans and other assistance that routinely went to Whites. The government settled in 1999 and has paid out nearly \$1 billion in damages on almost 16,000 claims. Farmers, lawyers and activists are still working to reopen the case because thousands of farmers missed the deadlines for participating.

Black people in the United States have to get used to photographs of the President and the Attorney General being Black men.

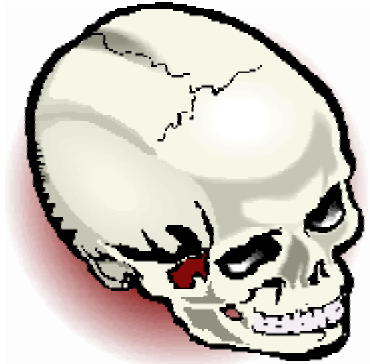

Africans in Argentina created the Tango.

When Black people are not around other Black people for an extended

The Nubian Times

period of time, they suffer depression.

CRACK HEAD NEWS

HANDLE YOUR BUSINESS EDITION

Black people do have the power to make a "doctor" whomever they want. We do not have to sit around and let White people dictate who are the healers or teachers within our own community. Negroes and Crackers don't have to recognize whoever heals our pains, ills, heartaches, psychic and spiritual happenings, but that's tough shyt on them. Some may even call it Ghetto Scholarship. What the f#uck! We'd have to wait a million years before White people appoint enough of our own people to look out for & service our needs. It's called Nation Building!

When you love your children, you are not going to be paid for everything you do.

The majorities of Black people do not believe or support the idea of same sex marriages. Don't spend a lot of time thinking about those that do. Spend as much time worrying about them, as they seem to be spending on worrying about you. Handle your business!

Europeans have yet to prove to Africans or anybody else that they are human. As long as they have

10

power over anybody, they don't have to prove a thing about who or what they are. The beginning of Nationality is when you can get Europeans to prove themselves to you.

Early research indicates that an estimated 15 to 19 percent of all African-American women in the U.S. - more than 36.6 million women have a history of hair loss, and more than half (51 percent) are concerned with thinning hair/hair loss as a top hair care problem.

A part of the reparations case for Black people living in America should be "child support due". Crackers forced sex on Black women during servitude and the slavery period and ain't paid one penny for the support of their offspring. Black people have always tried our best to take care of our own, against all odds, but them crackers are dirty. We want reparations now!

Uncle Tom and Aunt Jemima behaviors have increased in Iraq, Iran, Afghanistan and Korea, especially with women previously from these countries and cultures, spying for the United States. The corporations of the United States pays and these women want to play agent, reporter, correspondent or agent provocateur, with a touch of European styled feminism.

Without Black churches, mosques and temples in the United States, what do you think Black life would be like in the United States? Do I have to ask Shorty? We want to make things better, but we want to keep some of what we got. The only thing we can control in our own community is our church and our places of praise & worship.

After plastic surgery, Lil Kim and Beyonce are starting to look alike. Their behaviors always were very similar, but now you have to look close to tell the difference between them.

Wigger news- rumor has it that more poor, azz Caucasians are now entering a mostly Black & Latino prison system for drug charges. Negroes Beware: don't think that they won't organize on your azz.

President Obama may not set precedence and go after former President George Bush, but Dick Cheney had better get out of town by Sun Down.

Europeans only care about rules when they can use them against you.

Kenyans own but 30% of their land. The rest is owned and worked for profit by foreigners.

Territory controlled by the Afghan and Pakistani Taliban has increased. The Taliban is becoming institutionalized in Pakistan.

A lot of Black children have more problems testing than they do with reading materials that they do not understand or relate to.

Most Black entertainers, models and sports figures are no different than your average, ordinary Negro. You won't find very many Negro entertainers that stand for anything, because they feel they only owe White America for their momentary fame and fortune. Just flash a little bit of money in their face and they will kiss a White boy or girl anywhere & anyplace, easily open their legs or tail up, wear a dress, play a junkie, cut their nose or lips down, lighten their face, act extremely stupid or even betray their people on the big screen. It's all-good! They're making the money. It just may not be time to get rid of the "N" word just yet. Every Negro wants to be a Playa Yo!

The next time you hear somebody Black say or shout "Halleluiah", ask them what it means. You surely won't get much of an answer, they just copycatting White people.

The Nubian Times

Bill Clinton set the world's record for the number of Black men locked up during his administration.

Desperate people do desperate things.

Cyber war can be a force multiplier or a way to get control of an enemy without the need for engaging on a physical field of battle. The modern day nationalist engages cyber war to combat their foes. A true warriors must be able to manipulate reality in virtual reality like any good magician.

Be careful what or who you attract to you or what others allow to be general spirit. Flies do attract other flies!

When what you think is funny and what a man who wears a dress thinks is funny, is the same thing, it may not be time to get rid of the "N" word just yet. Something and somebody is whack!

Moor Wigger news- White girls are all up in African dance classes trying to get their groove on and trying to learn how to rotate their hips.

To Black people it is no surprise that Europeans practice torture on their prisoners. To Black people, Caucasians have often been considered terrorist. When you have been through what Black folks have been through by the hands of Europeans, we have plenty of names for them.

If the Taliban can gain control of Pakistan, Islamic fundamentalist will have their hands on a nuclear trigger

Got a Facebook account Boo? Give up that personal info on yourself. Rumor has it that the CIA and the Dept. of Defense back Facebook. Whatever the case, it's a perfect place for data mining by Multi-National Corporations. What's

done in Facebook stays in Facebook!

In American society, no good deed goes unpunished, especially for Black people.

Broke-A-Sexuals- never have much money and will perform sexual –like acts with anyone that acts like they will take care of them or even put them up for the night. Broke-a-Sexuals give “gay” people a bad name. They weren’t born “gay”, they were born broke and become “queer” just to fund whatever habits they might pick up.

There are now no significant anti-war protests in the United States.

Barack Obama, President of the United States, has escalated the illegal war in Afghanistan with an additional 21,000 troops and has expanded the war into areas of Pakistan using troops and unmanned drones. Is it draft time yet?

If a person has on a business suit, a super hero cape, a fez, locs, a kilt, mud cloth, maybe even a degree from a college or university, how are Black people, we the people who are darker than blue, suppose to know who may possibly relate to our situation? We’ll take our chances with peeps that got carbon markers, but even that doesn’t always work. There are traitors, snitches and agents in the ‘Hood galore. Still, we must never give up and never give in!

No Black person died for the right to vote to be “one” with White people. You must be crazy. Our

people that hadn’t lost their African minds wanted “freedom”, not assimilation. Somewhere all the way, some “NIGGERS betrayed us and they settled for self-gratification.

Rumor has it that Tiger Woods is contemplating quitting golf to teach his children skiing, bob sledding and ice fishing.

Reading books, bibles, magazines, torahs, pamphlets, Korans, circulars, blogs & newspapers may be a good thing, if you are taught & know you have to fight to prevent your own genocide. If you are not ready to fight from being exterminated, reading books will just make you a well-trained mutt. Even somebody illiterate knows that a bully or the Beast will keep kicking on that ass until you get him, her or it off of your back.

Only a Negro male is so stupid to think that any White female is innocent. It may not be time to get rid of the “N” word if this kind of ignorant behaviors persists.

The majority of Black people do not marry outside of their race. Don’t spend a lot of time thinking about those that do. Spend as much time worrying about them, as they seem to be spending time worrying about you. Handle your business!

Teach your children how to manipulate the system. Parents have to challenge things for their children. Make the system work for them.

White people cannot make a movie without some type of lesbian scenes in it. If it doesn’t have some type of session with White females kissing, it make inferences to the subject. It’s getting to the point that if young girls don’t have any discipline, self-control or cultural base to operate from, they might think this kind of behavior is not queer. For White females it may be

The Nubian Times

the norm, but for Black women, this behavior is still queer behavior.

In the United States, the Food and Drug Administration says that they haven’t had much of a problem with their corporate manufacturers and pharmaceutical drug making corporations dumping tons of drugs into public drinking water. They wouldn’t do that, would they? Just don’t ask how anybody in the United States got cancer if they drink public sewage water from their in house public, pay water bill, water faucet.

U.S. manufacturers, including major drug makers, have legally released at least 271 million pounds of pharmaceuticals into waterways that often provide drinking water — contamination the federal government has consistently overlooked, according to an Associated Press investigation.

Black people that think by being Islamic, they will live a life of peace and equality, had best take a look at Northern Africa. If you like serving tea, washing people’s feet and watching your children being sold, you may be just fine. If you have visions of grandeur, you had best regroup and buy you a suit with a fancy hat. You might want to be anything but Black, but like everybody else you want to reap some of the rewards that Black people fought and died for. Ain’t that the truth Boo?

Europeans are in a state of decay, but they are struggling hard to prevent African people from knowing who they are.

Rumor has it that in South Africa, the government is giving away houses to foreign nationals, while it’s own people need proper shelter and running water. There have been demonstrations and protests that voting doesn’t mean anything to the people, when elected government officials are not listening to the people and obliging

foreign governments. Many of the protesters claim they voted in previous elections and have not benefited. These situations sound all too familiar in areas where Black people live globally.

Girls that don't like boys, flip the script and dress like boys. Boys that don't like girls flip the script and dress like girls. The American Medical Association, which speaks for doctors, nurses and those in the United States medical professions, says that this is not queer behavior and normal for an European dominated society.

Unconsciousness of Black consciousness will make people of color do some funny things, like disrespecting Black folks and negotiating and making treaties with our enemies thinking that they are going to get away with it. What goes around comes around Yo!

California, which has one of the nation's largest prison populations, farmed out 170,000 inmates to private prisons in as far away as Tennessee in 2006 to relieve costs and has relaxed its penal code to relieve prison overcrowding.

Michael Vick will have to apologize and show "genuine" remorse to White people for the rest of his life for his participation in a dog-fighting ring. One thing for sure...there won't be any pets in the Vick household, that is if he ever has a house again. Michael Vick supposedly paid his debt to society, but the pit bulls in PETA would rather he didn't play professional football and remained penniless.

Japanese authorities, in Japan's manufacturing industries, are paying foreign workers to go home on the understanding that they will never return. This offer is mostly for Brazilians, the larger majority of them are temporary workers, even though many have been employed for 20 or so years. Japanese manufacturing has been hard hit by the recent economic crisis.

If you ain't living right, don't worry about it, a European or someone taught the European way will give you a pill or a drug and everything will be all right. Well, that is up until you go blind, you guts rot, your face starts to fall apart or something like that. Whatever! White people got something for whatever ills you as long as they get paid Boo. The system is designed so you think of their welfare from sun up to sun down Yo. Anything else and you might not get paid chump! Whatever!

AIDS IS A KILLA BUT... Did you know that you can test positive for Aids in one country, but maybe not in another country. There are 62 conditions that will give you a false positive test for AIDS-(such as TB, Measles, Mumps, Chicken Pox, Herpes, Malaria, Hepatitis and more) 62 common conditions.

The Bush Administration bombed Iraq, killing innocent children and civilians and has resorted to hideous torture to get information from people they believe to be terrorist. How can the United States come out of their mouth with anything about Human Rights?

The Nubian Times

This shyt has been going on for the past 500 years, inflicted upon one group or another to help build and maintain the American Empire.

Barack Obama plans to leave at least 35 to 50 thousand troops and about 50 thousand or so mercenaries in Iraq, after the pull out of the main body of U.S. troops. The country will still be occupied, but you just won't hear as much about it on the controlled news stations. Power hungry and oil mad corporations are not stupid Yo.

Rumor has it that lesbianism is rampant in Kenyan boarding schools exclusively for girls. Many of the girls have been infected with European culture and White female feminism. They want to fool the established system, be registered as female, and then have fun playing the part of males. Many of the female students have sex with workingmen for money during school holidays, but for enjoyment and fantasy, the practice of lesbianism is the popularity, thrill or fad. Some of the girls are even known as "husband" girls. There activities are usually secret and only known to students and a few teachers. Many of the students feel that times have changed and what was good for their parents is not what they deem to be good for them. Rumor also has it that this truly hints of Oprah Winfrey meddling on the Continent.

Never let schools interfere with your loving your children. Children should never let a school interfere with their loving their parents or their race-family!

People that do not glorify tri-sexual behaviors are considered homophobic. People that do not glorify heterosexual behavior are considered straight-o-phobic.

Rumor has it that Uganda is having problems and scandals in their born-again Christian congregations.

Many of their pastors have been featured in the media with a negative light, with allegation ranging from sexual harassment and embezzlement to child abuse and witchcraft. It seems that there are no requirements to be a Christian pastor as long as you can get a flock of people to follow you and fill out the right government papers. Many Ugandans are known to treat their churches like African Americans do...like the Church is some kind of a club, where people can go to party, dance, socialize and perhaps see a miracle or two.

Planned Parenthood is the largest abortion provider in the United States. 78% of their clinics are in minority communities.

When did women start being so ashamed of being women, that they wanna play at being men!

Black people with money are the biggest punks in the world when it comes to discussing Racism in America. Black people with careers and jobs are a close second. I believe many of these suckers are handicapped when it comes to talking about White Supremacy. It may not be time to get rid of the "N" word and the descriptive word "Negro" should burn in many a Black person's ears.

White people voted for Obama so that they could save themselves

from other White people and anybody else that won't let them have their way. White consciousness is alive and well.

Why wouldn't a queer nation have a whole shyt load of queers? Did you really think that queers don't carry Bibles, Korans or attend churches or mosques, don't sit in bars getting twisted, don't want power & prestige, don't stereotype other people and don't subscribe to White Supremacy. For somebody oppressed, you awfully stupid Boo! Never forget that queers will beat down and oppress other queers or anybody else that stands in their way.

The past is strapped to our backs. We do not have to see it, we can always feel it.

If you think that you are going to "love" White people out of existence, you are dumber than I thought. Then you will never be able to get White people, White thought, White culture and White sickness out of your mind. You will become Neo-White people, just like so many of us now say that they are White people, except you might want to continue using that bleaching cream to be truly sure..

The Negro has a hard time conceptualizing that there is White Consciousness in the politics of the United States and anything that Europeans do on a nationalist and globally level. You big dummy! It may not be time to get rid of the "N" word quite yet. No group of people, generation after generation, can continually keep getting slapped up side the head without ever knowing who is responsible for the slapping. No group of people can combat getting slapped up side the head by slipping into fantasy. This shyt is getting' ridiculous!

If Crackers had incarcerated women for abortions, the taking of an innocent life, there would be

The Nubian Times

more Black women in prison cells than there would be Black men in them. It may not be time to get rid of the "N" word, if Black woman continue with this abortion madness, regardless of what Crackers do. Black women must learn how sacred their womb is.

According to the FBI missing person's report, there are more missing Black men in the United States than missing Black women. Black men and boys get the least amount of media attention for missing persons. Black men are under attack at all ages and in all places. The more males are suppressed, the more females will get stressed, depressed and messed up.
