REMINDER Of the SLAVE TRADE & a Case for REPARATIONS

Phillip Garrido and his wife Nancy are the husband and wife team that were recently charged with kidnapping 11-year-old Jaycee Lee Dugard in 1991. Authorities said they held her and two children she had with Phillip Garrido as prisoners in a backyard encampment.

Jaycee Lee Dugard, a White girl, had been kept captive with the two girls, ages 11 and 15, in a series of filthy tents and sheds hidden behind the Antioch, Calif., home of Phillip and Nancy Garrido. The children were told that Nancy Garrido was their mother and their real biological mother, Jaycee Lee Dugard, was their sister. The children have never seen a doctor, have never gone to school, were kept in complete isolation and are considered to be illiterate.

The Po-Po called it an “organizational failure” in November 2006, when a Black neighbor called 911 to report that Garrido was psychotic, that there were people living in tents in his backyard and that children could be heard there. The Black neighbors phone call was not whole heartedly, but briefly followed up and then

ignored. It took another 3 years before police got back to the scene.

**SEX SLAVER,
RAPIST,
KIDNAPPER,
MURDERER
Phillip Garrido**

What we have here is a recent fine example and reminder of what was done to Africans as they prepared for their daily lives in their own land with their own people. If this crime by Garrido & wife does not strike a nerve with all Black people in the Americas, then maybe it should. African people on our continent, were just snatched up, chained and herded like cattle to forts,

dungeons and thrown in the filthy holes of slave ships. The ones that died during the passage across the Atlantic, were thrown to the sharks and those that survived, were presented like animals for sale on auction blocks in the Colonies.

These kidnapped Africans were taken to a land as less than human, classified & counted as property in chains and had to work from sun up to sun down for at least 10 generations, held as captives on plantations with “0” wages, forced to live in more squalor and even more filth than Jaycee Lee Dugard and her 2 children.

A great many of the kidnapped African women and men were raped, sodomized and murdered. Laws were passed to keep the kidnapped Africans illiterate. When the women had children, the children were considered the Master’s property and they were worked , raped and sodomized as well. Most Africans are usually quiet

about the degradation, but stories have always surfaced that tell of how people similar to Phillip Garrido and his wife Nancy did our people wrong. This is not the time nor the place to bring out those details, but it is the time for us to see some of the similarities of what Phillip Garrido & his wife Nancy, supposedly Christians, did to Jaycee Lee Dugard and daughters, as compared to what slave masters like Thomas Jefferson and thousands more like him, did to millions of kidnapped Africans. Let this travesty and trauma serve as a reminder that Reparations must stay on the table. White people feel that Jaycee Lee Dugard and her children should be compensated for their trauma, their pain and their suffering, but they still want to ignore and not make just compensation for what was done to kidnapped Africans and what kidnapped Africans did to help make the United States of America the global power it is today. With laws and a lack of humanity to justify our treatment, we suffered through 400 plus years of no wages, degradation and brutally and endured the prolonged insanity of racial hatred directed towards us. This struggle continues to this

day and to this time and space that we all live in. Without Reparations, we are finding that we were and are still being treated as less than human, by a people that do not understand what it means to be human!

THE GOSPEL ACCORDING TO AFRIKANS

(OUR STORY)

Maybe while reading this Gospel, somebody might get up some nerve and want the status quo to change. No one person can do it alone. If you can't rally and get people to move for their own salvation, maybe you can muster up the courage to get people to not be afraid to open their mouths. If you think all you have to do to get justice is vote, you haven't done nothing

The Nubian Times

yet! What's GOING ON? This is the Gospel according to Afrikans!

CULTURAL COMPETENCE & JOBS

The Gospel According To

Dr. Edwin J. Nichols

“There are two things that will be necessary to have a job in the 21st century: You must have the most current skills and you must be culturally competent. Cultural competence is the ability to extract from people their unique contributions, a prized trait in a business that has changed its structure.”

THE BREAKING GLASS CEILING

The Gospel According To

Dr. Edwin J. Nichols

“The traditional hierarchical system that promoted those liked by their supervisors collapsed in a growing, intensely competitive, international market as companies realized their glass ceilings were keeping out the valuable opinions of women and minorities. That structure was so rigid; it couldn't change fast enough to stay competitive. Finally the structure is saying you have to work with people who have the most skills. If I'm a boss and I have a problem and I want it solved, I don't care what you look like as long you have the skills to make it work.”

THE AMERICAN DILEMMA- THE DECISION WE HAVEN'T MADE

The Gospel According To

Steve Cokely

“That's the decision we haven't made. We haven't made whether

3

we've suppose to build it up and work with it, whether we've suppose to hold it in one hand and act like we love it or destroy it. We haven't made up our minds. And the failure to answer that one simple question compels confusion in the neighborhood. It's the confusion that is holding us back. The inability to affirm what are we really gonna be. What are we really trying to do?"

BLACK FUTURIST

The Gospel According To

Steve Cokely

"We don't have a preferred world. That's why we don't have any Black futurist. We don't have anybody who prefers anything for us or deliberates a preferred Black world. There is no future Black. There is no future thinking. No future plans. No future focus. No desire to be anything more than just a little better than what we were, which is insufficient to make it in changing times. We could kick back and it would be all right, if the other side wasn't kicking ass like it is!"

BANKING CRISIS

The Gospel According To

President Luiz Inacio Lula Da Silva

"The financial crisis was caused by "White people with blue eyes"."

"This is a crisis that was caused by people, White with blue eyes. And before the crisis they looked as if they knew everything about economics."

POWER THROUGH VOTING IS A DECEPTION

The Gospel According To

Dr. Amos Wilson

"Power is not in elected politics. You can vote all you want to, but

you're not going to have any real power in this country, because the power is in the hands of the people who are never elected. The owners of property, the owners of wealth, the controllers of corporations and the controllers of major institutions, who survive and continue to exist as Presidents move in and out of office, they are the permanent government. Essentially the government that you elect is the government that they use to do their bidding."

A FREE MARKET

The Gospel According To

Dr. Amos Wilson

"There is no such thing as a "Free market" or an "Open Market. That's stuff that Black people believe. And they are the only people who believe it. A truly "free Market" wouldn't allow any racial discrimination what so ever. The minute you get any discrimination based on anything other than the fact that you have something to sell or something to buy, you're not in a free market. Black people have never been in a free market."

FLIP THE SCRIPT BELIEF SYSTEM

The Gospel According To

Dr. Ray Hagins

"When you have knowledge you don't need faith. Faith is belief in unverified thought. And what the religious program has taught us is that without faith it is impossible to believe in God. The religious program has flipped the script on us and made faith more valuable than knowledge. The more mystical something sounds, the more we get into it. The more it does not make sense, the more we like it."

SITUATIONS OF INJUSTICE

The Gospel According To

The Nubian Times

Bishop Desmond Tutu

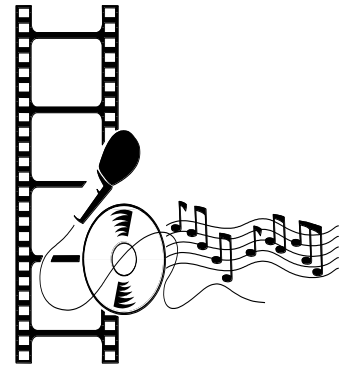

"If you are neutral in situations of injustice, you have chosen the side of the oppressor. If an elephant has its foot on the tail of a mouse and you say that you are neutral, the mouse will not appreciate your neutrality."

THE JOURNEY

The Gospel According To

John Hope Franklin

"We must go beyond textbooks, go out into the bypaths and untrodden depths of the wilderness and travel and explore and tell the world the glories of our journey."

A FORK IN THE ROAD

Smokey Robinson & the Miracles

Beware

Beware

Beware

Seems like love should be easier to bear

But it's such a heavy load

Worldwide traveler you ain't been nowhere

Till you've traveled down loves road

I know I may be just a stranger

But lovers let me warn you there's a danger

Of the fork in love's road

Beware, the danger is there!

4

One way is for those who go along
That way tempts the fool like me
Oh but lovers don't try to go it on
your own
You don't want that misery
Oh, why didn't I see the sign
Before I left my love behind
At the fork in love's road
Beware
The dangers there!

TRUE HEROISM

The Gospel According To
Arthur Ashe

“True heroism is remarkably sober, very undramatic. It is not the urge to surpass all others at whatever cost, but the urge to serve others at whatever cost.”

LEADERSHIP

The Gospel According To
Arthur Ashe

“We Blacks look for leadership in men and women of such youth and inexperience, as well as poverty of education and character, that it is no wonder that we sometimes seem rudderless. . . . We see basketball players and pop singers as possible role models.”

PICK YOUR LEADERS

The Gospel According To
Dr. Julia Hare

“Black folks are still allowing White folks to choose their leaders. Do you believe that Israelis would allow the Arabs to choose their leaders? The Chinese would allow the Japanese to choose their leaders for them? Would the British allow the Irish to choose their leaders? Do you think that lions would allow tigers to lead them in the jungle? It's only Black folks who

will allow others to come in and pick their leaders for them!”

PROMISES & PROMISERS

The Gospel According To
Steve Cokely

“It's difficult sustaining a family on the promises of the victims. And victims' promises are bound to be broken, because more things happen in the victim cadre, to stop the fulfillment of a promise. Who's the biggest promisers...the ones who don't have it!”

POOR PEOPLE

The Gospel According To
Steve Cokely

“Poor people don't have a problem focusing on the enemy, they have a problem eating!”

CRACK HEAD NEWS

WHITE PRIVILEGE EDITION!

White people have gone from thousands to millions to billion dollar rip-offs. White privilege helps create “off the hook” White collar crimes. White privilege allows White people to rob companies, corporations, cities, states and other White people blind. The arms of White privilege must be broken or we all are going to

The Nubian Times

cursed with the putrid smell of death.

As beautiful and highly educated as Michelle Obama is some of the Negroes in Martha Vineyards considered The First Lady a “ghetto girl”, because she was raised on the “wrong side of the tracks”. To these Negroes her education and her elegance under extreme pressure don't mean a thing. It may not be time to get rid of the “N” word just yet? If you got better words and a better description for ignorant behavior and actions coming from our own Crack Heads, you better tell somebody. It's getting increasingly harder and harder to sit back and be polite while somebody is bashing in your head.

The job market is tough enough, but you have to beware all the capitalistic resume writers and jive recruiters you have to pay for whatever. No, everybody ain't bullshyt, but to find the real is like trying to find a needle on a football field.

Black GrapeVine news- Beware White, good ole boys and girls with their companies, corporations, cities, counties, states and countries when they start talking about firings and lay-offs. This is just another one of their bullshyt efforts to make it look like they are turning a profit without creating wealth. They know they can't sell their stock and interests when something is failing. With layoffs they drop salaries and paychecks and make it look like a profits. They have no intentions of increasing production, goods, services or income. These White boys and girls just decide to grab whatever they can and run. See the White boys run Boo! Run White boy run! White men can't jump, but they do know how to run off with whatever they can get their hands on!

5

Almost 90% of U.S. dollars have traces of cocaine on them.

Black GrapeVine news- Henry Louis Gates has made the decision himself to shut the f#ck up and not stir up any trouble. After all, the police didn't beat his azz, they just humiliated his Harvard azz just like a common Yo boy! What up Homey?

What makes Black people think that Europeans can be religious or democratic? It may not be time to get rid of the "N" word just yet. Black people have to get rid of some of that stupid bullshyt we be thinking. The more stupid something sounds, the more we believe it, no matter how crazy it appears to be right before our eyes and our life long experiences. Some of us still crazy and it ain't got anything to do with no ghetto Boo!

Don't let not having a job make you lose your confidence. To fight idle time, you might have to let some of that creativity juice flow. When you stop believing in yourself, that's exactly what the vultures are looking for. No matter what, always remember, the struggle continues.

Mac is not safer than Windows; it's just that malware writers prefer attacking the platform that has the biggest install base. A lot more peeps still use and prefer Windows based computers over Mac computers. Hackers just want to have fun and make profit from their attacks when they can. It's just not as profitable and as much fun attacking Macs. When you do get a virus or malware on a Mac, it's just as much a pain in the azz!

It is now what you know, not who you know. Black people had best get to knowing. White people can no longer look to their stupid azz, retarded friends and families for jobs, unless they want to leave out of this world backwards, quick and

in a hurry. Any White person that has a company, corporation or a city, state or country, if they have any sense at all, they had best get the most qualified people to work and pay them what they are worth. Step up Black man and Black woman, but be prepared to protect yourself at all times!

It cost more money to keep one man in confinement in jail than it costs to send one person to Harvard University with tuition, room and board paid in full. When are all the educated minds going to figure that out and rectify the problem? There wouldn't be a problem if it weren't for someone profiting off of other people's misery.

White youth are much more likely to use and sell drugs than Black youth, but Black teenagers are more likely to be incarcerated for drug offenses than white teenagers.

Uncle Bill Cosby, a kind of, sort of Republican, is on the Jell-o trail again. He is going to do some nice, funny, old man skits to make White people happy and feel good about educating their children. He has to prove to his superiors that he is doing his part to save America. We must save America and keep those NAACP Negroes and dem children with dem funny names like Barack, in their places. The Doctor is HNIC and could use some more money or something. Whatever! Just as long as pudding sales go up, good ole Bill is doing his part. May Dr. Bill be funny HA HA, not funny HE HE!

There are six large U.S. cities with populations over 100,000 people – Hialeah, Miami, Fla., Glendale, Santa Ana, Daly City and El Monte, Calif.- where the foreign-born people comprise more than 50 percent of the population. Other cities about to reach a 50% population of foreign born people are: Los Angeles, East Los Angeles and Garden Grove, Calif., along

The Nubian Times

with Elizabeth, New Jersey. Where are White people gonna run now?

BLACK DOLL & MONKEY SET FOUND IN COSTCO

If Negroes had just 60 seconds of White Only restrooms, White Only water fountains and Colored toilets & Colored water holes, then no Negro would have too much reservation about who the Americans are. Just 60 seconds. If you were confused about who you are and where you came from, somebody White would tell you quick, in a hurry and leave no doubt in your mind. You'd be profiled every second of every day. If you were ignorant to the situation, you'd catch on real quick Boo. Staying close to the people that look kind of dark & Black like you, would be the only place you might be able to rest your head for a second or 2 and find some semblance of peace. The Black ones are the ones that would risk life, limb, bloodshed and death for your sake if at all possible. Get the picture Shorty! How soon the Negro forgets. That's why there is still White on applications and you risk jail or unemployment playing some other game. The more things change the more they remain the

6

same, unless you surround yourself with ignorance. It may not be time to get rid of the “N” word just yet. It would only take a second or 2 to adjust your memory!

How would men like it if somebody spread the story that men came from a woman’s RIB? You can intellectualize it all you want.

Snatch and grab was created invented and first done by White people. White boys have been known to back a truck up to a gun shop and snatch as many weapons and ammo as they can before the Po-Po arrives. I know you can think of a whole lot of things that White people have snatched and run off with. When people of color snatch and grab, we are just following White boys and girls psychotic leadership.

Wigger news- One of the hottest drugs on the streets is Oxycontin, better known as Hill Billy Heroin. The desire for the high that only opiates can give has turned a prescription painkiller into the illicit drug of choice for many Americans. If you see a Hill Billy that thinks they are Superman, you best believe they might have taken some Oxycontin. They shoot the shyt up and will swear on a stack of Bibles that the shyt ain’t addictive. Oxycontin has replaced Black Tar Heroin as a drug of choice for a lot of Wiggers.

Everybody that didn’t vote for Barack Obama can now go to a town hall meeting and voice their displeasure with him or the Government. Whatever! Then the conservative media can call and identify all of these rag tag terrorist as “All the American people. Go figure!

Wigger news- A team of White scientists, at the University of Copenhagen, has tracked down a genetic mutation that leads to blue eyes. The mutation occurred

between 6,000 and 10,000 years ago. Before then, there were no blue eyes. Conscious Black people already knew this, but only recently have White scientist made it available to the general Black, White or whatever public would get it between their ears.

Its dam near impossible to send money to someone living underground.

2Pac was the first artist to have a number one record while serving a prison sentence.

You can tell when it’s hard times. Only then do you have Negroes that call themselves Africans, pan-Africans or something cultural that spend most of their time finding something wrong with their own people and the people they are most likely to be able to organize and work with. That should be the time when they rally their people the most, but instead they look to the negative. They are Negroes because their fraud is worse than any chicken foot, bullshyt preacher trying to tend some sheep.

Has anybody noticed how quiet Black leadership, especially Civil Rights All Stars have become lately. Even a lot of preachers and ministers haven’t had much to say for the health, welfare and guidance of their people lately. Everybody seems to be on lock-up except for Al Sharpton. It’s like Black people are afraid to say anything. Afraid, afraid, afraid! It’s like their voices have been muted, because they are afraid somebody might get offended by what they might say and in general, Black people are super afraid of offending any White people. Lose a job or be turned away from a job, because of your mouth. Oh my God! If you arte a Lil byatch, you might as well shut the f@ck up, but if you got balls or pizzazz, this is no time to be quiet. Black proverb no.1... You gets no

The Nubian Times

respect if you don’t even try to fight back.

Lots of Black folks waited for a Black President, but now that they have lived during his Presidency, they still remain scared and as silent as before. They let one of their own just be disrespected and made a mockery, but won’t fight back. What do they deserve? It may not be time to get rid of ...you know the deal!

Back in the day, women took birth control pills once a day. Now modern “science” has perfected chemicals so that women can take shots, implants or swallow pills once a month or even once every five years. How long before females are given pills at birth or chemical releasing devices up in their private parts to prevent child birth? A bad moon is rising Boo!

The Po-Po are more prone to have a shoot-out in suburbia than they are in the inner city. Billy Bob knows where the majority of the guns are and where they have fortified themselves in.

All Black folks go to White schools no matter where they are in the United States.

There are still White people that do not want other White people to be able to read, write and comprehend. They profit from those Whites that are ignorant and educationally poor.

The Klan...you can read about it and you can hear about it, but when you see them in person...its chilling!

Tyra Banks will teach you how to sell your body. If you have any thoughts about using your brain, you best bet would be to turn the TV off before you subject yourself to that much stupidity.

The White Brotherhood Collective makes sure that Black people are excluded from any “Free Markets”

and make sure that Black people fail economically. If corporations control it, it ain't free Boo!

It's usually broke people that think nobody else is supposed to have any cheddar. Nobody is supposed to have any ingenuity. Everybody is supposed to be dirt poor and want to stay that way. The poorest people are usually the ones that get the most creative. That is unless they want to remain broke.

Wigger news- Europeans have a history of bringing in foreign workers to help with their Empire building. Back in the day they brought in boat loads of African captives to do work. They didn't bring in boat loads of poor, ignorant azz Europeans; they brought in African people that already had a long history of Empire building. Today they bring in Mexicans, Indians, Asians, Latinos, Africans, Iranians, Chinese, Koreans, Jews, Arabs or any other group to help maintain their hold on the land and the people living on the land. It's called CAPITALISM Boo! As a matter of fact, more and more red necks are soaking up Welfare and government checks.

It wasn't a pleasure to see Serena and Venus get their butts kicked, but at least Serena showed some emotion and toughness before she went down. She apologized to her fans for the out bursts and put it all to rest. Would she really have stuffed that tennis ball down that woman's throat?

Kanye West is off the hook. He showed some pent up emotions too. At least he didn't sit there like a fearful Zombie, like most other Black people in the audience and just do the whatever. He showed some balls. Sure he is going to have to pay for it, but let's just hope that his music doesn't suffer. Kanye is known for standing up for what he perceives as truth. Should we

expect anything less from ourselves?

President Obama's speech to school children was a form of programming. Everything seen on television is a form of programming. His published on paper speech was another form of promotion and programming, distributed well across America. White people just don't get it! The squeaky wheel is getting oil all over its face. Things can never go back to yesterday, but we all can learn from yesterday. NEVER AGAIN!

Depending on the amount of melanin in the iris, a person can end up with eye color ranging from brown to green. Brown-eyed individuals have considerable individual variation in the area of their DNA that controls melanin production. Blue-eyed individuals only have a small degree of variation in the amount of melanin in their eyes. Blue eyes are genetic recessive. Brown eyes can generally see objects clearer, deeper and have better vision & perception than blue eyes. Blue

The Nubian Times

eyes are only fashionable to people that don't know any better.

If Negroes don't include Black youth in their economic and political schemes, Black youth will continue to form their own group activities, oftentimes misnomered as street gangs. Could these groups be a matter of survival?

I LUV YOU MAN!

One Black Hand must wash the other Black Hand!

Now that Black people are not the largest minority in the United States, you are going to learn what "people of color" is all about. If Black people don't seek power and think about the future, they will have more problems than they can handle. You can't judge people on your personal feelings or it may not be time to get rid of the "N" word just yet! Groups don't have permanent friendships or relations, they only have permanent interests Boo.

Uni-sex militaries only occur in uni-sex countries. In these societies, women have to fight because men won't or there are not enough men available to fight. In either case, these types of societies don't last very long. No society can last very long when their women and children are being stepped on!

Body parts are selling for top dollars, with a booming international market. This market caters to rich recipients and

8

destitute often helpless donors. The biggest participants in the trade for body parts are unscrupulous Western pharmaceutical companies seeking to profit from marketing their latest products, that they have derived from the procurement of human body parts.

Beware the temp agencies. There still are racist corporations and racist temporary agencies trying to make their profits off of Black people wherever and whenever possible. They want you cheap, so they can capitalize and make as much profit as possible. They'll throw you a couple of dollars and charge companies up the azz for your services and skills. The temp agencies want 3, 4, 5 times what you are getting. Most of the time, the unsuspecting company that you are temping for doesn't know exactly what you are being paid. They want you to work like a bunny rabbit, never knowing the agency is pulling in the big bucks.

We live in a time where there is increasing evidence that the overwhelming majority of colorless people are caught up in so many myths and lies that they are on an even faster track out of this world.

Oxycontin is the most popular narcotic painkiller in America, ringing up more than \$3 billion in sales and filling nearly 12 million prescriptions yearly. Will Health care Reform make it more accessible to junkie, White people? Drug companies already make it highly accessible to dopers, especially on the East Coast, but if the price is lowered, only God knows who will trip into that shyt!

When Black men go to prison, the system recognizes that it can get labor from you for about \$1.00 a day, for however many years your sentenced. Places like Amazon and other prison employers just love you. Think of how much money they save. Wiggers have yet to

realize that prison workers are taking some of those precious jobs they claim foreigners are taking from them. We all in this thing upside down!

White people do not have the same value system as Black people. They are in love with objects and don't have the capacity to share.

Most large dog fighting rings and gambling set ups are operated by Whites and most of the money goes to Whites. Michael Vick didn't invent dog fighting. The crime Mike committed was doing something he had seen White people get away with since he was a child, never really perceiving of his activities as "illegal". Cave men say their best friend is a dog, but Europeans have been pitting dogs against each other since they domesticated these animals and made them their pets. White people have even been "breeding" dogs for fighting and purposes of mangling people for ages and long before their hordes arrived in the Americas.

The placentas of Black women are still being used in beauty, skin care and facial products.

Gynecologists, hospitals and drug companies in the United States make more than 8 billion dollars a year from the business of hysterectomy or female castration Yo. No European woman or man should ever run their mouths about any practices done in Afrika until they can clean up their own mess.

Drugs only become legal after White people have enough people addicted to them and the sources & distribution networks are all tied up by them.

Wigger news- In tough times, lower class Red Necks need someone to scorn and people they feel that they are better than. These Wiggers have a history of being sold out by their politicians and

The Nubian Times

elected officials, but usually don't confront them, instead directing their anger and frustration at Black folks whenever possible.

BLACK FACTS

All knowledge is rooted in reality

On March 6, 1957, Ghana was the 1st African nation to gain independence from European colonial rule.

Africans are still selling the mineral rights of their land to Europeans. A couple of Africans then have beautiful homes in Europe, while the rest of their kin and Africans live in poverty and squalor.

Black traders in kidnapped Africans did not share in the great wealth created by the slave trade. Instead these Africans were being hustled into betraying the very people that could help them fight off their major enemy and deceiver, the European. Then, Africa was carved up by the Europeans and those traders became the betrayed and the colonized.

Black people and color-less people do not vibrate at the same frequency.

Equatorial Guinea is the third largest oil-producing nation in Sub Saharan Africa.

Sakanouye Tamura Maro, a Black man, became the first Shogun of Japan.

9

Nobody ever did African people any favors. Everybody that ever came into African came to take something. African people don't owe anybody anywhere anything. Anyone that has ever come among us has exploited us successfully. We don't owe anybody anything.

In the United States, 71, 000 people are employed as professional athletes. Only ten percent of those players are Black people. When Black people enter a sport, they tend to dominate that sport, even with numerous rule changes to keep them out.

Black drug dealers selling drugs to other Blacks do not share in the great wealth created by the drug industry. Instead these Africans are incarcerated by European policing & the prison industrial complex and those who thought they were players or dealers become betrayed.

When Panama was bombed by the United States, the areas that were bombed were the areas that Black people lived in.

For too many Black and people of color, the prison system is their new form of slavery.

No matter which part of the globe that one looks, there can be found the disinherited native. Whether it be the indigenous people of North and South America , the indigenous people of Australia and the Pacific, the Palestinian, or the African, their present existence is shaped by that age of robbery when being non-Christian or non-white meant being disinherited of one's ancient ancestral homelands and deprived of one's rights.

Afrikan men give their children their First Eye, sometimes misnomered the Third Eye. That is why the ancestors placed emphasis on the seed.

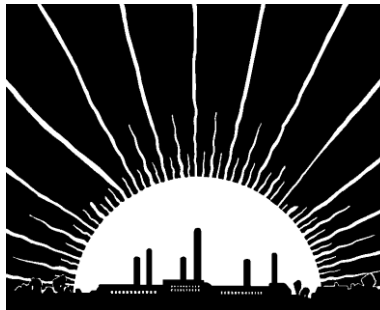

Afrikans cannot seriously talk about getting economic control of

themselves unless they are ready to go to war with Whites capitalist. That is the reason we have stayed away from economics for so long.

African-Americans are the only people that teach other people's history first.

Africa has a lot of land but someone else owns the productive capacity to produce from the land.

EUROPEAN FACTS

SUBURBAN LEGENDS (RUMOR CONTROL)

Europeans did not inherit the United States, they took it.

White scientists have concluded that all blue-eyed individuals are linked to the same ancestor. They have all inherited the same switch at exactly the same spot in their DNA.

In European societies, the killing of unborn or unwanted children is called an abortion. Often times the fetus or child is ripped, many times in pieces, from the mother's womb.

In the colonial United States, the land owners and power brokers did not want their slaves or indentured servants to be able to read, write, compute or decipher. They felt they could only be Empire Builders if they could maintain a totally ignorant and divided Continental population.

The Nubian Times

Every Empire that Europeans had was contingent on how much they took from Black people.

Hysterectomy (pronounced his - ter-rek-ter-me) - a medical operation to remove part or a woman's entire womb. It's the European version of female mutilation. Europeans have two main ways to perform a hysterectomy. The most common way is to remove the uterus through a cut in the lower abdomen, the second, less common, way is to remove the uterus only through a cut in the top of the vagina, and the top of vagina is then stitched. Each operation lasts between one to two hours and is performed, in hospital, under a general anesthetic.

In the United States, there are about 2 ½ million known deaths per year, with the majority of those deaths being White on White violence. Cardiovascular disease, cancer and drink driving are major contributors, but White on White violence is the leading contributor to the majority of deaths in that country. These numbers could appear to be misleading, because of the number of missing persons in the United States. A good portion of persons missing usually turn out to be dead.

It is generally White men that commit suicide in hard economic times. When they have the advantages of having White privilege and a White education and lose their jobs, they feel depressed and that life is no longer worth living. They take the quickest exit they can from being treated like those that were less fortunate and those they were taught to despise because of their race or ethnic heritage. White women are more prone to use chemicals to ease their depression. Chemicals are just a slower route to the same place.

(As Given By The United States of America)

1. You shall have no other forms of government before me.
2. You shall not make for yourself an independent and self-sufficient government, for I am a jealous bureaucracy and will punish the Indian children for the sins of their fathers to the seventh generation of those who hate me.
3. You shall not misuse my name or my symbols, for I will impale you on my flagpole.
4. Remember the first of each month by keeping it holy. The rest of the month you shall go hungry, but the first day of each month is a tribute to me, and you shall receive welfare checks and commodity food in exchange for your continued dependence.
5. Honor your Indian father and Indian mother because I have stripped them of their land, language, and hearts, and they need your compassion, which is a commodity I do not supply.
6. You shall not murder, but I will bring FBI and CIA agents to your reservations and into your homes, and the most intelligent, vocal, and angriest members of your tribes will vanish quietly.
7. You shall not commit adultery, but I will impregnate your women with illegitimate dreams.

9. You shall not give false testimony against any white men, but they will tell lies about you, and I will believe them and convict you.
10. You shall not covet the white man's house. You shall not covet the white man's wife, or his hopes and opportunities, his cars or VCRs, or anything that belongs to the white man.

It seems that the media does not want to panic the controlled, general public with any of the details, but we need to know what level our ancestors have moved their Natural attacks too. We have heard a little about fires, bugs & pestilence raging across a few continents, but very little about the Earth & Wind damages that stopped Lupiderm advances in their tracks. The real holy places must remain sacred as we develop the new areas. **Please remember to move in silent.** More are starting to disappear!
